EnBill Crack License Code & Keygen (Updated 2022)

enBill is an efficient and user-friendly software solution meant to assist you in managing the stock and inventory of your business, enabling you to add new records, as well as sell products and generate invoices. Clean and simple looks Following a brief installation process, you will be able to launch the program and input the default credentials, 'admin1' as username, and 'admin' as password, in order to gain access to the main window of the application. enBill features a tabbed interface, allowing you to browse between the three main sections, namely 'Inventory', 'Invoice' and 'Reports', each designed to serve a different function. Manage purchases and sales From the 'Inventory' tab, you can insert new products by entering the corresponding 'Item Code', the 'Item Description', 'Buy Rate', 'Sale Rate' and 'Retailer' name, then click on the 'Add Record' button. Once the items are listed, you have the option of modifying the 'Count', then you can press 'Submit' to save the input data. The 'Invoice' section of enBill enables you to sell the objects you have in our 'Inventory' by entering the purchaser's 'Name', 'Contact Details', 'Mobile' number, as well as the 'Item Code', then press the 'Enter' key to list the object. Optionally, you can adjust the discount rate, the VAT percentage and the 'Count', before clicking on the 'Invoice' button to generate the form and print it. The 'Reports' can be created based on the available invoices, the products' stock, the current profit and based on the retailers you collaborate with. Each of these can be issued for a specific time range, or in relation to a certain retailer. enBill is available in French, English, Spanish and German. enBill is available for Windows, Mac OSX, Android and IOS. Description: ZenBill is an efficient, user-friendly financial management solution for small to medium-sized businesses. This program is offered at a cheaper price, however, it still comes with comprehensive features you will definitely need to manage your inventory, sales, and so on.
